Welcome

Fellow Technicians,

At the University of Florida, we value technicians and believe that a strong technician team is the true backbone to any practice. We have a passion for strengthening the knowledge of all technicians, knowing that their expertise and compassion are crucial to the outcomes for their patients.

We are excited to offer you the opportunity to join us at the University of Florida Veterinary Hospitals for a day of continuing education. This year we have expanded our program and are offering two different tracts of small animal topics, as well as a full morning of talks on large animal medicine. We will also be providing hands-on opportunities to delve deeper into the topics through master classes and labs, enhancing your learning experience.

We hope that you will join us for our 2014 conference and look forward to seeing you!

Best wishes,

Danielle Jonas, CVT
Program Coordinator
UF Small Animal Hospital Veterinary Care Manager

Continuing Education at the UF College of Veterinary Medicine

The University of Florida is an approved provider of CE credits for veterinary technicians by the Florida Department of Business & Professional Regulation, Board of Veterinary Medicine. Attendees will receive up to seven contact hours.

University of Florida
Veterinary Hospitals
